### Feedback

*False. The readings are not required and you should be able to learn any/everything from either the video lectures, the lecture notes or easily googled sources on the internet.*

*Also, you can might find free pdf copies of it on multiple websites on the internet, such as [z-lib.org](https://z-lib.org).*

*The book is a good book! so if you \*want\* to own a good reference then purchase it.*
